Hyderabad India | 9014260328 | akatta228@gmail.com

Summary

As an aspiring front-end developer with training in HTML, CSS, JavaScript, and Angular, I am passionate about developing user-friendly web applications that enhance the user experience. With a strong foundation in front-end development, I am eager to continue learning and exploring new frameworks that will be beneficial to my organization. I am committed to staying up-to-date with the latest trends and technologies in front-end development and am always looking for opportunities to apply my skills and knowledge in new and innovative ways. As a dedicated and enthusiastic team player, I am excited to contribute to the success of my organization and to grow my skills as a front-end developer.

Skills

- JS Frameworks: Angular
- Programming Languages: Python
- HTML,CSS , Java Script

Experience

ASSOCIATE SOFTWARE ENGINEER | 07/2022 - Current

Osmosys Software Solutions - Hyderabad, India

- As an Associate Software Developer (Front-End), I was responsible for designing and developing the user interface for the organization's own product using Angular framework. I worked collaboratively with product managers, designers, and backend developers to ensure that the product meets customer needs and requirements. Additionally, I was responsible for identifying and resolving technical issues and continuously improving the user interface to ensure that it remains up-to-date with the latest technologies and trends.

Education and Training

CVR College Of Enginnering - Hyderabad | Bachelor of Science

Electronics And Communications, 08/2020

Activities

In addition to my academic pursuits, I am also passionate about music and literature. I have been a singer for the past four years and I am proud to be a part of the Aavyshkaar band, which is a regional band that performs at various events and venues.

Music has been a significant part of my life and has helped me develop my creativity, discipline, and teamwork skills. As a member of Aavyshkaar, I have collaborated with other musicians to create original compositions and arrange covers of popular songs, which has allowed me to develop my musical abilities and express my creativity.
